

SNEHA MAHATO

Full Stack Developer

6202900467 | mahatosneha0329@gmail.com | Bengaluru, Karnataka, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years building enterprise-scale Java EE / Spring Boot microservices and React.js applications, driving measurable gains in performance, stability, and delivery speed across banking, investment management, and recruiting platforms. AWS Certified Cloud Practitioner with hands-on cloud deployment experience (AWS, OpenShift/Kubernetes-based) and a track record of mentoring engineers and driving Agile/Scrum delivery.

TECHNICAL SKILLS

Backend: Java, Java EE, Spring Boot, Hibernate, REST API Design, Microservices

Frontend: React.js, JavaScript, Typescript, HTML, CSS

Data: MySQL, PostgreSQL, MS SQL Server, MongoDB

Messaging: Apache Kafka (producers/consumers, event-driven & asynchronous processing)

Cloud & DevOps: AWS (EC2, S3, CloudWatch), OpenShift, Kubernetes, Docker, Containerization, Azure DevOps, Git, Bitbucket

CI/CD: Jenkins, Azure DevOps Pipelines, Continuous Integration/Continuous Deployment, Build & Release Automation

Architecture & Practices: Microservices Architecture, RESTful Web Services, Object-Oriented Programming (OOP), Design Patterns, SDLC, Agile/Scrum

Testing & Tools: JUnit, Mockito, JMeter, Postman, Maven, Jira

Certifications: AWS Certified Cloud Practitioner

WORK EXPERIENCE

Senior Software Engineer | GlobalLogic

Sep 2025 – Present

Hyderabad, Telangana

Project: iCIMS (Recruiting Workflow Platform)

- Developed and enhanced 5+ Spring Boot microservices, resolving 20+ backend and BFF defects.
- Integrated React.js frontend with 10+ REST APIs, ensuring consistent data flow and validation.
- Contributed to Apply Integration workflows connecting recruiting channels with the iCIMS ATS, leveraging Kafka for event-driven communication between services.
- Performed load and performance testing across 8+ API scenarios using JMeter.
- Supported application monitoring and troubleshooting using AWS EC2, S3, and CloudWatch.
- Containerized services using Docker and supported CI/CD pipeline execution via Azure DevOps for streamlined build and deployment.

Senior Systems Associate | Infosys

Jun 2023 – Sep 2025

Bengaluru, Karnataka

Project: Danske Bank (Banking & Financial Services)

- Developed and maintained 10+ Spring Boot microservices for banking and sustainability workflows.
- Built and optimized REST APIs, improving backend performance and cross-service communication.
- Resolved 50+ application/production issues through debugging and root-cause analysis.
- Achieved 90%+ unit-test coverage using JUnit and Mockito across key application modules.
- Built React.js dashboard components and supported deployments on OpenShift using Docker containers.
- Set up and maintained CI/CD pipelines using Jenkins and Azure DevOps to automate build, test, and deployment workflows.
- Mentored 3 junior developers through code reviews, debugging, and development best practices.

Systems Associate | Infosys

Dec 2021 – Jun 2023

Bengaluru, Karnataka

Project: Vanguard (Investment Management)

- Developed 8+ Spring Boot microservices and batch components for investment-management workflows.
- Built batch jobs for data validation, transformation, and downstream processing, using Kafka to feed batch jobs asynchronously.
- Developed REST APIs for data exchange between internal and downstream applications.
- Supported application deployments using IDP and AWS-based environments.
- Participated in Agile/Scrum ceremonies, sprint planning, refinement, and delivery.

EDUCATION

Bachelor of Science (B.Sc. Hons.) – Mathematics

2018 – 2021

MRS. KMPM Vocational College, Jamshedpur | First Class: 82%
